

Web & App Development for Petroleum Refineries Company

PROJECT DETAILS

A Web Development

B Jan. 2017 - Ongoing

C \$10,000 to \$49,999

D *"The team at Glajumedia met our expectations, adapting to our needs."*

PROJECT SUMMARY

Glajumedia has been involved in multiple development projects for an energy company. Their team built two websites and a mobile application. They also provided maintenance support.

PROJECT FEEDBACK

Glajumedia went above and beyond, delivering quality products. The work they produced has streamlined processes within the company. Their availability and proactiveness complemented their professional management style. Their team is adaptable and supportive.

The Client

Introduce your business and what you do there.

I'm a digital media supervisor at Petroperu. I supervise all of our social media channels, website, apps, strategies, and innovations.

The Challenge

What challenge were you trying to address with Glajumedia?

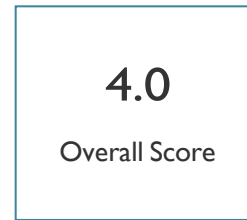

We worked with Glajumedia on numerous development projects.

E **Elias Rivas**
Digital Channel Supervisor,
Petroperu

G **Energy & natural resources**

H **1,001-5,000 Employees**

CLIENT RATING

Quality: 4.0

Schedule: 5.0

Cost: 4.0

Would Refer: 5.0

The Approach

What was the scope of their involvement?

One of the projects involved the development of two websites, an information site and an app for multimedia file management. For the website, they used WordPress. Their team also provided us maintenance support for more significant projects.

We had to implement our institutional website in two languages and implement our corporate intranet. It was an integration of all services, which they helped with management and support.

What is the team composition?

We worked with a project lead, a designer, and a developer on the website. For the app, we worked with three people, and for the support, we worked with another two.

How did you come to work with Glajumedia?

I started searching for different companies, asking for proposals. I ended up reviewing three, choosing Glajumedia because of their price. We started with the website before working on other projects with them.

How much have you invested with them?

We invested around \$140,000 Peruvian soles (approximately \$41,650 USD).

What is the status of this engagement?

Our engagement with Glajumedia started in 2017.

The Outcome

What evidence can you share that demonstrates the impact of the engagement?

The websites have been of great help. Their team was able to implement the project in minimal time with a beautiful and easy-to-use design. As for the app, the solution they proposed was helpful. The app has allowed us to have better organization within the company.

For the support side, they were also great. I was in charge of the project, so having their support was a great help. It took a lot of the workload off of me and allowed me to continue with my daily assignments. The team at Glajumedia did that very well.

How did Glajumedia perform from a project management standpoint?

Their team was always available, working on any pending requests. We had a calendar that they met. They were also able to deliver some things in advance when there was an urgency.

What did you find most impressive about them?

The team at Glajumedia met our expectations, adapting to our needs.
